

Bhumi Binara

LOW-CARBON COLLECTION

Bhumi Binara by Du Anyam

Bhumi Binara is a prestigious collection of low-carbon corporate gifts, born out of Du Anyam's commitment to carbon neutrality.

Handwoven by East Flores women artisans, each piece features our signature palmyra leaves and fermented coffee leather. Meticulously crafted into elegant and durable pieces, this natural collection also offset its carbon footprint by supporting the development of renewable geothermal energy.

Bhumi Binara is dedicated to you—hopeful and courageous supporters of Indonesian heritage, women empowerment, and Mother Earth.

Take a stride today toward sustainability and social impact, harmoniously aligned with ESG values.

Bhumi Binara
is our bold commitment to creating
a harmonious path with nature
Weaving Goodness, Embracing Earth

WHAT MAKES IT LOW CARBON

Biodegradable Natural Materials

Locally-sourced palmyra leaves and organic leather made from fermented coffee bean waste.

Measured Carbon Emissions

Emissions are tracked from specific phases of production and transportation.

Carbon Offset

Offset the measured emissions by contributing to geothermal renewable energy development in Lahendong, North Sulawesi.

Innovative Degradable Materials

Palmyra Leaves

Staying true to Du Anyam's tradition, this collection is handmade using locally sourced palmyra leaves from East Flores. Employing the centuries-old *Kepitang* weaving technique, **Bhumi Binara** reflects our unwavering dedication to genuine heritage artistry—warm and deeply authentic.

Vegan Coffee Leather

An innovative upgrade, **Bhumi Binara** also features coffee leather, an emerging vegan alternative. Meticulously processed through hours of fermentation, this animal-free leather is durable, environmentally friendly, and pleasantly aromatic.

Benih Pouch

Inspired by the unique shape of seeds, the **Benih** pouch embodies the philosophy of nurturing growth and sustainability—one seed at a time.

A symbol of our decade-long journey toward women empowerment and sustainable practices, this collection sows the seeds of positive impact for tomorrow's growth.

EMPOWER WOMEN | PROMOTE CULTURE IMPROVE LIVELIHOOD

Founded in 2014, Du Anyam is dedicated to bringing social impacts for women weavers in remote areas of Indonesia.

With a focus on women empowerment and heritage preservation, our community now consists of 1600+ skilled weavers with a global presence through local handcrafted goods.

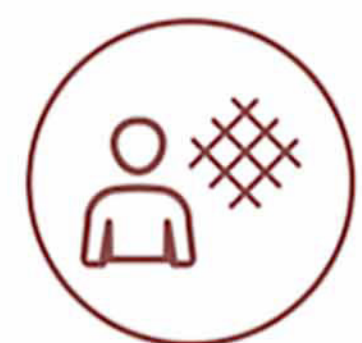

Empowering women through a new source of income generation.

Limited income generating options

Connect markets through development of product, logistics, marketing & technology.

Leverage & upgrade pre-existing skills productively.

Rooted in ESG values, Bhumi Binara boldly advances sustainability by intricately weaving palmyra leaves and incorporating coffee leather innovation from a natural fermentation process.

Demonstrating our commitment to sustainability, we have tracked each product's emissions, **measuring the carbon footprint** from specific phases of transportation to production. The measured emissions are **then offset through the development of a Geothermal Energy in Lahendong, North Sulawesi.**

This carbon offset project was successfully brought to fruition in collaboration with Fairatmos, a certified and credible tech-climate platform in Southeast Asia.

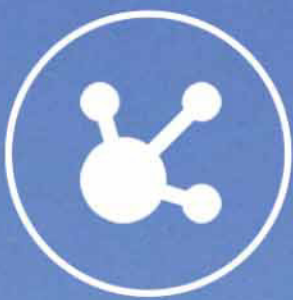

Project benefits:

Climate Benefits

Community Benefits

Biodiversity Benefits

Partnered with:
 FAIRATMOS

Take a **bold action** through
ESG-aligned gifts with
powerful impacts on
women empowerment
and **sustainability**.

By supporting Bhumi Binara,
you stand with women weavers
and promote the importance of
low-carbon initiatives for a
better tomorrow.

Together, let's weave goodness
and embrace the earth.
