Design Philosophy:

Rumpun refers to a cluster of plants whose offspring belong to the same family, interconnected by shared roots.

Laptop Sleeve**

Inspired by Du Anyam weaving and the upcycled window curtain waste, Rumpun is the coming together of two different stories. Yet, they share one unique bond of unity. Interestingly, these materials also bear similar textures and natural touches.

Regardless of our backgrounds, Rumpun reminds everyone to come together for nature and its preservation. Whether it's in your local neighborhood, the rainforests and even Mother Earth, we're all rooted in the same vision of a better world and brighter future.

Meticulously made by hand,
each item in this collection is carefully
assembled to **serve a new purpose.**

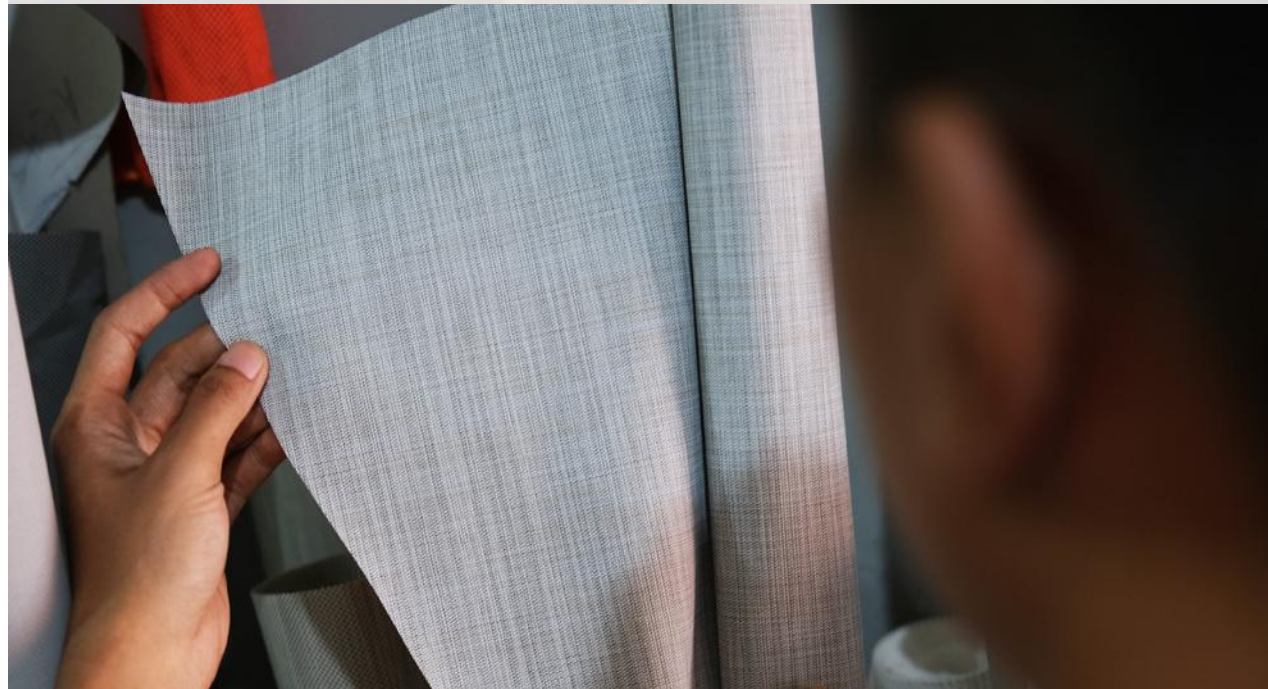

All materials used are natural botanical pieces, specifically the signature Palmyra leaves of Du Anyam. **When put together by women weavers, comes a collection that embodies the essence of unity and craftsmanship.**
