The Nobo and Tobo Poufs blend modern refinement with Indonesian craft heritage through a sleek high-gloss base and Violet-hued handwoven textile.

Du Anyam's sobe kepitang weave, a traditional hexagonal basket motif, is reinterpreted as a sculptural accent that adds cultural depth. The addition of teak leaves enriches the material narrative, expressing a refined balance between contemporary design and time-honored craftsmanship.

KEMILAU NUSANTARA:

Where Scent Becomes Space

EUÓDIA ×  DU ANYAM

Euódia is a fragrance brand that views scent as an experience. Through refined home fragrances and artisanal perfumes, the brand evokes emotion, tells stories, and elevates everyday spaces. Euódia's approach to fragrance meets Du Anyam's weaving heritage in a restrained dialogue between scent, material, and space.

Kemilau Nusantara is a home fragrance collection inspired by dawn, dusk, and night — blending natural scents with cultural elegance in handcrafted lontar-wrapped diffusers. Featuring **Embun Pagi, Jingga Raya, and Lentera Bambu**, each scent captures a distinct moment of the day.

The **Du Anyam Tray** and **Buana Agenda** complement the main diffuser, extending its story through material and craft. Handwoven from natural lontar leaves by women artisans in East Nusa Tenggara, each piece adds warmth, texture, and a sense of quiet harmony to the space.
